

CP 300 Series

Design for children with Cerebral Palsy/ Muscular dystrophy. The combination of Tilt-in-space and Recline system on KM-CP33 provides a perfect pressure-free sitting environment for children. Separator, trunk supporter, dining tray and many other accessories and options are available to personalize the most suitable KM-CP33 for your children.

- **Tilt-in-Space System for Pressure Release**

The Tilt-in-Space system not only provides full support to the user's back but also evenly distributes buttock pressure, thereby stabilizing the sitting posture and minimizing the chance of developing pressure ulcers. In addition, tilting slightly while moving forward can bring additional safety to the user.

- **Recline System**

Recline system provides kids with the most comfortable resting environment. It also allows stretching of the abdominal muscles which can reduce stress and discomfort after sitting in a wheelchair for long periods of time.

- **Light and Easy to Transport**

KM-CP33 is compact when folded and with its light weight of only 11 kg, it is super convenient for transport and storage. It is recommended to purchase other supportive devices if the user travels frequently.

- **Detachable and Swing-away Footrest**

Tool - free swing away footrests make it convenient for kids to change Position. Optional elevated footrests allow users to raise legs and relax

muscles when reclined. Compact and easy to store when folded.

- **Flip-back Armrest**

Easy and convenient lateral movements such as moving to a bed.

- **Various Footrest Designs**

For those with shorter legs, you can choose shorter footrests or elevated footrests.

- **Curved Head Support**

Adjustable in height, position and angle to provide stable and comfortable head support. For a better and more comfortable fit, you can order side pillows or custom-made pillows.

- **Crash Test Approved**

KM-CP33 is approved for transportation in accordance with ISO 7176-19. This means it is suitable to be used as a seat in a motor vehicle for transportation.

- **Optional Accessories**

- a. Lap Tray
- b. I.V. Pole Holder
- c. Oxygen Tank Holder
- d. Vertical Footrest
- e. Pelvic Belt
- f. Harness
